

## Alphabet Photography Assignment

Alphabet photography is the creative process of photographing everyday objects that resemble letters of the alphabet, then putting the photos together to create any name or word.

**Directions:** For this photo shoot you will be shooting the letters of the alphabet. Look for LETTERS A-Z within your surroundings! They can come from nature, or man made materials. You are NOT permitted to photograph ACTUAL letters. The letters must be "found" letters that in most people's eyes are just objects or surroundings. You need to photograph things in ways that make them look like letters. You are required to get all 26 letters of the alphabet.

Perform a Google **image** search for the phrase "Alphabet Photography." Check out the concept. Notice how everyday objects are carefully captured to appear as letters of the alphabet.

Requirements:

1. Shoot as many examples as you would like.
2. Make sure that each "letter" fills the frame and is shot in monochrome.
3. Shoot all of your letters in the same direction - either horizontal or vertical.
4. Create a Google slideshow.
5. On the first slide, put your name.
6. Add each "letter" to a new slide. Make sure that your slides are in alphabetical order!!!
7. You will have a total of 27 slides - one title slide (with your name) and 26 slides for the letters.
8. Submit your work.
