

Assignment - Shutter Speed - Motion

In this photo shoot you will continue practicing taking pictures in **shutter priority mode**. This time you will freeze the motion of different subjects.

- use a high shutter speed starting from 1/200 sec

You will take a total of 6 **pictures** containing the following:

1. **Picture #1-#2: Person running**
2. **Picture #3: Person sliding down the staircase rail**
3. **Picture #4-5: flipping pages in book, magazine, notebook**
4. **Picture #6: freeze any motion you want**

Create a new Google Slide show and on the first slide add the title of the assignment. (Motion)
Insert your pictures onto 6 slides **in the correct order**. Add a caption for every photo including the **shutter speed**. (Example: 1/125)

- **Add one more slide and Answer the following questions in the text box:**
 1. **Which of the pictures do you like the most? Explain why.**
 2. **Did you experience any difficulties when taking the pictures? Explain what happened. Did you solve the problem?**
