

## Alphabet Photography Assignment

Alphabet photography is the creative process of photographing everyday objects that resemble letters of the alphabet, then putting the photos together to create any name or word.

**Directions:** For this photo shoot you will be shooting the letters of the alphabet. Look for LETTERS A-Z within your surroundings! They can come from nature, or man made materials. You are NOT permitted to photograph ACTUAL letters. The letters must be "found" letters that in most people's eyes are just objects or surroundings. You need to photograph things in ways that makes them look like letters. You are required to get all 26 letters of the alphabet.

Requirements:

1. Shoot as many examples as you would like.
2. Make sure that each "letter" fills the frame.
3. Shoot all of your letters in the same direction - either horizontal or vertical.
4. Create a new page on your website and title it "Alphabet."
5. Drag 26 image blocks onto your page. Make sure they are in the body of the page and not in the header.
6. Caption each picture with the letter it represents.
7. **PUBLISH YOUR WORK!!!**
8. See Mrs. Slappey if you need help. Don't wait until the last minute to ask for help.
